Easy to use Whitening Strips!

WHITEWASH LABORATORIES

Professional Whitening Strips 6%
$0.00
With 6% hydrogen peroxide, the mouldable plastic strips contain the optimum amount of whitening gel to simply, safely and effectively, whiten your teeth.

Sonic Whitening Toothbrush
$0.00
Provides a powerful cleaning action that thoroughly cleans teeth and helps to remove plaque. The sonic action also helps to brighten teeth by removing surface stains.

Whitening Toothpaste with Silver Particles 125ml
$0.00
Contains special micro-polishers that help to clean and brighten teeth and uniquely contains 99.9% pure silver particles, (natural antibacterial element in the toothpaste).

Remineralising Whitening Toothpaste 80ml
$0.00
Contains hydroxyapatite. It seals the dentinal tubules, the micro-pores that can be exposed on the tooth surface and brightens their appearance. Micro-polishers brighten teeth.

Historically, whitening has often been administered based on whatever the dental clinic has in stock at the time. Now, with the WhiteWash suite of products, you can create a tailored whitening treatment plan and 'manage' your patients' whitening experience.

This wholistic approach to whitening means that you can offer a better customer experience to your patient.
You can recommend and prescribe a bespoke treatment plan rather than them buying one product from you and then buying their toothpastes, toothbrushes, bleaching top-ups etc from elsewhere.

1ST MARCH - 30TH APRIL 2015. *ONLY WHILE STOCKS LAST. ALL PRICES INCLUDE GST, WE RESERVE THE RIGHT TO AMEND ERRORS & PRICES.
